Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

**DETAILED ACTION**

***Response to Amendment***

1. In response to applicant's amendment filed 4/11/02, claims 21-33 have been added. Claims 1-9, 21-33 are pending.

***Response to Arguments***

2. Applicant's arguments filed 4/11/02 have been fully considered but they are not persuasive. Applicant made the following arguments:
  - a. "Sasaki's semiconductor laser chip only has one type of marks on the chip itself."
  - b. "the laser chip 3 [of Tada] does not have measurement marks like those of the claimed invention"

In response to applicant's arguments a-b above that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., two types of marks) are not recited in the rejected claim(s) 1-9. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-6, 9, 21-25, 27-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Sasaki et al (JP 09-145965 A). Sasaki et al discloses the claimed invention. Figure 1 illustrates a semiconductor laser chip comprising a first mark, a second mark.

Also note figure 2 which illustrates a first pair of marks (5) and a second pair of marks (14).

5. Claims 1, 6-8, 29-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Tada (5,684,902). Tada et al discloses the claimed invention. Figure 3a-3c illustrates a semiconductor laser chip comprising a first mark and a second mark.

**Fig.3 (c)**

***Claim Rejections - 35 USC § 103***

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 7-8, 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sasaki. Sasaki has been discussed above, except for the circular shape instead of the rectangular shape of the second pair of marks. Lacking any criticality, it would have been an obvious matter of design choice to have the circular shape instead of the rectangular shape of the second pair of marks, since applicant has not disclosed that for the circular shape instead of the rectangular shape of the second pair of marks solves any stated problem or is for any particular purpose and it appears that the prior art

would perform equally well with for the circular shape instead of the rectangular shape of the second pair of marks.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
